

a reliable stairlift for quality of life

First Choice for Comfort

Fitted to your stairs and not the wall - every Cumbria Stairlift features a well padded seat, large upholstered back rest, individual fold up arm rests, safety belt, push button or joystick controls, a swivel seat and a large footrest as standard.

First Choice for Safety

Cumbria has been built with safety in mind and has "safe edges" on the footrest, and both sides of the seat. Built in the UK to BS5776 Cumbria meets all UK and European quality standards. Cumbria is exported worldwide.

The Long Established Experts

Choosing a stairlift is a decision which demands careful thought. Choose a Cumbria Stairlift from the long established experts and you can rest easy in the knowledge that they have been the choice of Local Authorities and Health Care Professionals for many years.

Always Put Customer Service First

As one of only a few manufacturers who are members of LEIA (Lift and Escalator Industry Association) you can have complete peace of mind, safe in the knowledge that you have chosen a company who have built a long and enviable reputation as a manufacturer.

'Who always put customer service first'

Extensive Options

- Powered swivel seat
- Fully automatic hinge track (patented)
- Push button system hinge track
- Manually operated hinge track
- Stand/Perch model
- Adjustable child seat
- Wanderlead controls
- Soft back seat
- 5 point harness
- Retractable seat belts
- Extensive range of colours
- Heavy duty option up to 23 stone
- Interlinked seat and footrest
- Powered footrest
- Mains powered or battery operated
- Remote controls on both models

Cumbria 'Slimline' can also be customised to your needs.

First Choice for Versatility

If there is a doorway at the bottom of the stairs this proves to be no obstacle when fitting a Cumbria 'Slimline'. We can fit a fully automatic or a manual folding hinged track at the bottom of the stairs. This is only required if there is not enough space at the bottom for a standard track finish.

First Choice for Convenience

The "Cumbria" Slimline Stairlift is compact when not in use and folds away to just 280mm and swivels on very narrow staircases.

First Choice for Flexibility

Whatever the layout of your stairs, we can provide a solution to help.
